

TECHNICAL SERVICE BULLETIN

NO. 75-D-4

Austin MG

March, 1975

SUBJECT:

LAYGEAR AND MAINSHAFT REVERSE IDLER

MODELS:

MARINA & MIDGET 1500

The leading edges of the mainshaft reverse gear and laygear have been altered from pointed to 'round nosed' to obviate chipping of the gear teeth.

Modified gears were introduced at the following gearbox numbers:

MG Midget 1500 cc - - - - - 2270

Austin Marina - - - - - 18V 272621

The modified gears are individually interchangeable with the earlier type, there being no change in part numbers.
